

Project name: Piloting European Action on Cancer Health Determinants

EC contribution: €999 999.75

Duration: 1 February 2024 – 31 January 2027

Mission: Integrated cancer prevention through lifestyle risk factors – Adapting and operationalising the WHO BRIEF approach

4 Main Objectives

- 1. Align with the EU Joint Action on Cancer and NCDs
- 2. Research needs and gaps of current action to prevent cancer among specific at-risk groups:
 - Migrant/displaced people (UKR)
 - Lower-SES populations.
- 3. Tailored implementation plans operationalising the WHO BRIEF manual addressing multiple lifestyle risk factors: smoking, alcohol, physical inactivity, unhealthy diet, overweight, second-hand smoke, sun exposure (primary cancer prevention)
- **4. Pilot large-scale implementation** of the intervention tools in 3 countries (CZ, PL, ES (Catalonia))

European Commission (HaDEA) / JA-PreventNCDs / EU4Health

Project management & coordination & Synergies (WP1: FRCB-IDIBAPS)

Steering Committee (represented by 1 from each partner organisation)

Stakeholders: consultation, capacity building and alignment (WP2: ICAD)

> **Needs and gaps analysis** (WP3: ICO)

Environmental context (ICO)

2 Gender aspects (GENCAT) **Self-initiated** digital (HCB)

Working groups

Displaced populations (CUNI/MUW)

Low-SES groups (GENCAT)

CO-CREATION (UKR focus)

WP4: Development of implementation strategies (GENCAT)

> WP5: Pilot feasibility studies (FRCB-IDIBAPS)

WP6: Project Evaluation (CUNI)

3 Pilots

POLAND (MUW)

CZECH REP. (CUNI)

CATALONIA (GENCAT)

Local Communities of Practice

+ External experts: **Peer reviewers JA-Prevent NCDs EU4H** projects **EU Consortium**

WP7: Communication, dissemination and sustainability (FRCB-IDIBAPS)

Example of context: Reception of Ukrainian refugees in Poland

Marcin Wojnar, Andrzej Jakubczyk, Joanna Żołnierz, Włodzimierz Wieczorek

Reception infrastructures (2023)

- The support is provided by:
- non-governmental organizations (662 projects),
- public administration (258),
- religious communities (83),
- private entrepreneurs (51),
- international and European organizations (29),
- informal groups (27).

PEACHD Example of context: PEACHD team in Poland

Recruit and train 80 community care professionals from

1. centers collaborating with the UN-linked International Organization for Migration (IOM)

- centers of CARITAS in Poland (the largest charitable organization in Poland)
- the **Polish Committee for Social Care**, center in Milanówek
- the Camilian Mission for Social Help, center in Warsaw
- the **Heaven Eyes Foundation**, center for refugees at the Legia Stadium in Warsaw
- 6. support centers collaborating with Crisis Management Center of the Mazovian District Office

PEACHD Example of context: PEACHD Pilot study in Poland

Community care professional profiles:

- will be mainly psychologists, social workers, family assistants (who have wellestablished experience in work with Ukrainian refugees in dedicated places),
- will provide the PEACHD intervention for 400 Ukrainian refugees.

UKRAINIAN GROUP OF THE SPECIALISTS

Caritas DWP has recently organized 3-years training course for crisis intervention and psychotherapy for alcohol and drug problems for Ukrainian psychologists, psychotherapists and MDs. This allowed to create and establish deepened relationship with about 80 psychologists, medical doctors, community care professionals who have already gained competency in SBI and are willing to cooperate in these types of projects. We plan to conduct direct, face to face courses on how to provide the PEACHD intervention.

MAIN OUTPUTS

- New knowledge Study the implementation gaps and needs for programmes preventing cancer in specific at-risk populations
- Guidance on implementation strategies and design of SBI on multiple lifestyle risk factors.
- Practical decision-making tool to tailor implementation to diverse settings, based on
 - intersectional health and socioeconomic vulnerability factors,
 - adapt the SBI to individual lifestyle risk profiles.
- **Digital tools** for self-screening and self-management of lifestyle risk factors.

WP 01 Coordination

Lead: DOH, Norway (Linda Granlund) Co-lead: NIPH, Norway (Knut-Inge Klepp)

WP 02 Dissemination and communication

Lead: DOH, Iceland (Solveig Karlsdottir)

Co-lead: DOH, Norway (Live Bøe Johannessen and Anita Thorolysen Munch)

WP 05 Regulation and taxation

Lead: NIPH, Norway (Arnfinn Helleve) Co-lead: DGOH, Portugal (Maria João Gregório)

WP 06 Healthy living environment

Lead: FISABIO, Spain (Rosana Peiro) Co-lead: HZJZ, Croatia (Anja Đurić) and SUM, Poland (Katarzyna Brukalo)

WP 07 Social inequalities

Lead: ISS, Italy (Raffaella Bucciardini) Co-lead: NNGYK, Hungary (Peter Csizmadia)

WP 08 Monitoring

Lead: RSYD, Denmark (Emil Hostrup) Co-lead: ISS, Italy (Giovanni Capelli)

WP 09 Health in all policies

Lead: CSF, Finland (Eeva Ollila) Co-lead: DOH, Iceland (Dora Gudmundsdottir)

WP 10 Identify individuals at risk

Belgium (Marc Van Den Bulcke) **Co-lead**: RSYD, Denmark (Torben Hansen)

Lead: Sciensano.

WP 03 Evaluation

Lead: INSP, Romania (Carmen Ungurean) Co-lead: RKI, Germany (Martin Thissen)

WP 04 Sustainability

Lead: NIJZ, Slovenia (Mojca Gabrijelcic) Co-lead: Sciensano, Belgium (Gabrielle Schittecatte)

Main links for collaboration with the JA work packages (1)

WP 06 Healthy living environment

Lead: FISABIO, Spain (Rosana Peiro) Co-lead: HZJZ, Croatia (Anja Đurić) and SUM, Poland (Katarzyna Brukalo)

WP6 – Healthy Living Environment

Task 6.2 - Healthy environments - Healthy options and physical activity -

- PEACHD considers the impact of the environmental context on implementation elements, barriers and facilitators to offering and uptake of brief health advice
- PEACHD WP2 recruiting stakeholders for working group on this topic
- PEACHD WP3 Needs and Gap analyses including this topic
- Key importance: access to healthy options (food, physical activities, smoke-free spaces), reduce alcohol availability and marketing,

PEACHD links to other tasks in WP6, bringing in the perspectives of those promoting health in refugee and lower-SES populations, especially:

- Task 6.1 (methodology for assessing impact of environment),
- Task 6.6 (capacity building for health promoters)

Main links for collaboration with JANCD work packages (2)

WP 07 Social inequalities

Lead: ISS, Italy (Raffaella Bucciardini) Co-lead: NNGYK, Hungary (Peter Csizmadia) WP07 - Social inequalities (also overlaps with WP 06 - environment)

Task 7.5 - Inequalities - Pilot actions which address social determinants of health and/or exposure to risk factors -

- PEACHD WP2 Working group on cancer prevention tailoring to lower-SES populations
- PEACHD WP3 Needs and Gap analyses considering this topic
- PEACHD WP5 Pilot studies share population characteristics with JA WP07 pilots
- Key importance: SBI for lifestyle risk factors build health literacy, which
 is a specific barrier experienced by those with lower-SES

PEACHD links to other tasks in JA WP07 (points addressed in the PEACHD pilot studies):

- 7.1 available evidence on avoidable inequalities;
- 7.4 health literacy (including digital health literacy)

Main links for collaboration with JANCD work packages (3)

WP 10 Identify individuals at risk

Lead: Sciensano,
Belgium (Marc Van Den
Bulcke)
Co-lead: RSYD,
Denmark (Torben
Hansen)

WP10 – Identify individuals at risk

Task 10.2 - At-risk individuals - Ethical, Legal and Social Implications (ELSI) of risk-stratified prevention -

 A cascade motivational approach will be at the core of the PEACHD primary preventive intervention / training of professionals

motivate trainers \rightarrow motivate professionals \rightarrow motivate individual behaviour change

- This has to take into account:
 - Individual priorities & personalised value judgements
 - Concepts of risk
- PEACHD WP4 Implementation strategies develop training for professionals including decision models for offering advice.

There maybe other areas where other synergies with PEACHD are possible (e.g. digital monitoring of cancer risk factors).

PEACHD JA & EU4H Synergies - Timeline

Thanks for your attention

Coordinating Team:

- Silvia Matrai (FCRB-IDIBAPS, ES) Coordinating project manager <u>SMATRAI@recerca.clinic.cat</u>
- Fleur Braddick Communications, Knowledge & Synergies FMBOOTH@recerca.clinic.cat
- **Rebecca Gordon** Project technical advisor <u>RCGORDON@recerca.clinic.cat</u>

Also participating in this meeting:

- Alexandra Almeida Pinto Claudia Costa Pereira & Graça Vilar (ICAD, PT) WP2: Stakeholder groups
- Benjamin Petruželka (CUNI, CZ) WP5: Czech pilot, WP6: Project evaluation

Online:

- Włodzimierz Wieczorek & Joanna Żołnierz (MUW, PL) WP5: Polish pilot
- Laura Perdiguero (ICO, ES) WP3: Reviews, Needs & Gap Analyses
